

Justin Hess has been trying to achieve his goal of being more involved in his community and helping people. For a while he was having a hard time finding a good match but after this summer he found his niche! Those who know Justin know he has the gift of gab and is the king of puns! He loves being around people and making them smile which is the perfect fit for helping out in community events. Justin's first success was working the ticket booth at the Truck Show in May which opened the door to volunteering at Wienerfest in June. He spent the whole day dressed in a Ketchup costume coming up with non-stop puns keeping everyone smiling. Now Justin has locked down his first long term commitment volunteering at the Salvation Army where he gets to accomplish his goal of helping people every Tuesday and Thursday!

Both Alex and Brandon were smiling ear to ear the day of their move in. Through planning, both of these men have expressed to live in a different way, which included with less people and less noise. Their dreams have come true!

Both of these men are ready for their new journey!!

This will be Brandon's 3rd year working at Yard Basics and he has gone from not knowing how to operate a lawn mower to being completely trusted to identify what needs to be done and complete it with excellence. Brandon has been showing great initiative and a positive attitude and his employers/mentors Steve and Anthony made sure to let us know! Brandon says that his next big step is to find secondary employment over the winter months. In the meantime he is working on gaining the skills to live in his own apartment and continuing to volunteer his time at various community events. Keep up the great work Brandon!
